

**SAMPLE Agreement between Landowner(s) [name]  
and Iris Owner [name]  
Concerning the [name of] Iris Collection**

Irises from the [name of] Iris Collection are growing on my property. These irises legally belong to [name of iris owner] or to [her/his] heirs upon [her/his] decease.

If at any time I wish to stop housing these irises, for instance if I or my heirs want to sell my property, I will give [name of iris owner] (or [her/his] heirs) as much warning as reasonably possible. [She/He] will need to find a new home for the irises, which can only be transplanted during the growing season. I hereby informally agree to allow [name of iris owner] one calendar year, if possible, in which to move the irises. If I sell the property, I will attempt to get the purchaser to agree to such a clause in the purchase agreement.

If I die before the irises are moved, I encourage my heirs to see that the Historic Iris Preservation Society be made aware of the need to move them, and that representatives of that group be allowed to move (or hire someone to move) the irises.

**Letter of Intent [from Landowner to His or Her Heirs]**

I agree to write a letter of intent to my heirs concerning these irises. This letter is not part of my will, nor is it legally binding. It simply tells my executor what I intend or wish to happen to the [name of] Collection irises that are growing on my land. I will review my letter of intent with my heirs ahead of time, so they understand my wishes and will comply with them when the time comes.
